FEATURES of Online classes software

RECORD AND PLAYBACK

Live Class from us can record your sessions for later playback by students

WHITE BOARD

The whiteboard controls let you annotate key parts of your presentation.

SCREEN SHARING

The whiteboard controls let you annotate key parts of your presentation.

AUDIO

Users of Chrome and Firefox browsers will benefit from high-quality, low-latency WebRTC audio.

PRESENTATION

You can upload any PDF or MS office document. We keep everyone in sync with your current slide, zoom, pan, annotations, and mouse pointer.

WEBCAM

Multiple users can share their webcam at the same time. There is no built-in limit on the number of simultaneously active webcams

EMOJI

Students can raise hand and use emoji icons for feedback

POLLING

You can poll students anytime to increase engagement.

CHAT

You can interact with students through public and private chat.

LIVE CAPTIONING

You can enter live captions for students. These captions will later appear as subtitles in recordings.

BREAKOUT ROOMS

You can group and place students into breakout rooms (full sessions) for giving number of minutes for increased collaboration.
